Subject: RE: Formal Meeting Request about the HAMP from the Drinking Water Office of USEPA, Region 9, to the Hopi Tribal Council

Just to clarify, from the Enforcement Div's side, our focus is on village water systems that are currently on the ETT and in non-compliance w/the SDWA. Although I recognize that the progress of the HAMP directly/indirectly impacts these systems.

Roberto Rodriguez, Manager
SDWA/FIFRA Enforcement Office
Enforcement Division, EPA Region 9

Subject: Formal Meeting Request about the HAMP from the Drinking Water Office of USEPA, Region 9, to the Hopi Tribal Council

It has been proposed that representatives from the Indian Health Service (IHS) and the Drinking Water Office and Enforcement Division of USEPA, Region 9, meet with the newly installed Hopi Tribal Council to discuss the status of the Hopi Arsenic Mitigation Project (HAMP). IHS will be submitting a formal request to the Hopi Tribe to meet with the Tribal Council as soon as feasible in the new year. The Drinking Water Office will be preparing a similar letter to the Hopi Tribal Council to discuss the HAMP. I talked to Roberto Rodriguez today and he indicated that the SDWA/FIFRA Section of the Enforcement Division can also prepare a similar letter to the Hopi Tribal Council. In the meantime, both Roberto and I will be out of the office after this week and will not be back in the office until January 2014.

If someone can let me know who the meeting request letter should be addressed to, that would help a lot. Even a sample letter from IHS could help.
